Comments: (If possible, please reference section and/or page number in document if applicable.)

As a mother, wife, citizen, voter and human being
I represent hundreds of thousands like me who do
NOT want this shipment from Hell to ever leave
it's home state. We use no nuclear energy, so
why would we be expected to take other states waste?

I remember the fiascos created in the past by
the government. The very government running
this show - recall: Agent orange - our own servicemen
Love Canal - our own families
3 mile Island - our people + land.

I also recall Chernobyl, the worst disaster so far.
How is it that this country thinks it can do any
better hauling millions of units across the entire
country and not have any accidents? These
accidents present a potential disaster to the populated
areas along this route, not to mention the disaster
to the environment for the next 10,000 years (or more)
This time frame is someones best guess. Only a guess.
Please, for once, consider people first. Consider Earth first.

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
